

LARA ANQAWI

Full-Stack Developer | B.Sc. Computer Science, Birzeit University

Ramallah, Palestine | +972 59 415 0852 | laraanqawii@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate from Birzeit University with hands-on experience in full-stack web development and applied AI/NLP. Designed and built PalCareerLink, an AI-powered career-matching platform, as a graduation project (85/100). Completed a Google-sponsored Front-End Web Developer Nanodegree (Udacity) and currently developing practical AI application skills through the AI Career Accelerator (Birzeit University Center for Continuing Education). Combines solid technical foundations with clear communication and a detail-oriented approach to problem-solving.

SKILLS

Languages: Python, Java, JavaScript, HTML/CSS

Web Development: Responsive front-end design, HTML/CSS/JavaScript, Git

AI / NLP: Python-based NLP techniques using spaCy and scikit-learn

Tools: Supabase, Git, Figma, Microsoft Office Suite

Professional: Clear technical communication, collaborative teamwork, problem-solving under pressure, adaptability, detail-oriented organization

PROJECTS

PalCareerLink — AI-Powered Career Platform

Graduation Project · Grade: 85/100

Full-stack web platform connecting graduates with the job market via CV analysis and AI-driven job recommendations

- Implemented NLP techniques in Python (spaCy, scikit-learn) to analyze CVs and match candidates to relevant job postings
- Built the interactive front-end using JavaScript and HTML
- Enabled applicants to create profiles, apply for jobs, and browse filtered opportunities
- Enabled companies to post job openings and design custom qualification exams
- Used Supabase for database management, documentation, and file storage
- Achieved a grade of 85/100 for innovative design and execution

TRAINING & CERTIFICATIONS

AI Career Accelerator

In Progress · Since Aug 2026

Center for Continuing Education, Birzeit University

- 120-hour intensive program (20 training days) on practical AI applications, responsible AI use, workflow automation, and business/data-analysis use cases
- Includes a supervised Capstone Project (in progress)

Palestine Launchpad with Google — Front End Web Developer Nanodegree

Completed · July 2026

Udacity, Sponsored by Google · Started February 2026

- Covered responsive design, accessibility, SCSS/BEM, and modern JavaScript practices

Deep Dive LLM Bootcamp

Completed · 2025

zakey.tech

- Hands-on projects building and deploying AI agents using large language models and applied NLP techniques

EDUCATION

B.Sc. in Computer Science

August 2025

Birzeit University — Ramallah, Palestine
